## Ocean Suite

This bright and airy modern room has been refurbished with a contemporary décor. It has a full wooden dance floor (the largest in our group) with very modern beach theme design and can be a blank canvas for any event from conference, Christmas party to wedding. It has its own private bar with modern led colour changing light, perfect to theme any event. There is a ceiling projector designed for presentations on the clear wall at the rear of the room. The room is air conditioned and has a door leading out onto the balcony with stunning views of the ocean. An excellent space for drinks reception, photos or coffee breaks.

## Atlantic Suite

A bright and airy suite, generally used as the house restaurant or for larger private functions. Natural daylight floods in through the large windows that lead onto the outside pool terrace area. Contemporary design, using a beach driftwood colour scheme. There is a dance floor area within the room, enabling dinner discos and other light entertainment.

## Oceana Day Spa

Our Asian-inspired treatment spa has been carefully and beautifully designed to provide all our guests, locals and hotel residents alike, with treatments to unwind and restore balance to your mind and body, as well as enhance your experience within the Oceana Resort.
